By Böhmen Pharma

Occulus

Helps slow cataract progression (1, 3, 5, 6, 8).

- Lutein and Zeaxanthin:** Protect the lens by reducing the progression of opacities (nuclear cataracts) (3).
- Minerals (Zn, Cu):** Essential for eye development; help slow visual acuity loss (9, 10, 11).
- Vitamins (A, C, D, E):** Prevent nuclear and cortical cataracts by reducing the risk of cataract development in older pets (1, 4, 5, 6, 8).

COMPOSITION

COMPOSITION PER TABLET (750mg): Marigold flower (*Tagetes sp.*) (source of lutein, 4mg; and zeaxanthin, 0,5mg) (4,5mg), Lactoferrin (5mg), Dicalcium phosphate (400,02mg), Magnesium stearate (10mg).

ADDITIVES PER TABLET (750mg):

Flavouring agents: Chicken flavouring.

Vitamins: Vitamin A, Vitamin B2, Vitamin C, Vitamin E, Vitamin K, Vitamin B1, Vitamin B2, Niacinamide, Calcium D-pantothenate, Vitamin B6, Biotin, Folic acid, Vitamin B12.

Trace elements: Zinc (Zinc sulphate) (2,8mg), Manganese (Manganese sulphate monohydrate) (0,92mg), Selenium (Sodium selenite) (1,4µg), Copper (Copper(II) sulphate pentahydrate) (0,36mg), Chromium (Chromium chloride) (0,4mg), Iodine (Potassium iodide) (13µg).

Emulsifier: Microcrystalline cellulose (E 460).

- Lactoferrin:** Antimicrobial, antifungal, anti-inflammatory and anticancer properties (2, 7).
- Minerals (Ca):** Useful to control cataracts due to hypocalcaemia; help slow the progression of opacities (8).
- Vitamins (B1, B2, B5, B6, B8, B9):** Antioxidant properties to slow the progression of cataract opacities (3, 8).

INSTRUCTIONS FOR USE

Oral administration, once daily, with one of the main meals.

- Pets under 5kg: ½ tablet
- Pets from 5 to 10kg: 1 tablet
- Pets from 10 to 20kg: 1½ tablets
- Pets from 20 to 40kg: 2 tablets
- Pets over 40kg: 2½ tablets

STORAGE CONDITIONS

Store in a cool and dry place, protected from light.

PRESENTATION

Solid form: 30 tablets.

Take care of your pet
